## 1. Discover one free VPN that can be used to access to <https://web.whatsapp.com/>

there are many VPN services to access to whatsapp web, however if we're looking a vpn for using whatsapp, we want to use a vpn well ranked in privacy, thats why, according to the table, we are going to use AnonymousVPN

## 2. From Intel product mentioned in slide 13, indicate which one of them is tactical, strategy and mixed intelligence product?

Sophos 2020 Threat Report : strategic

THE WANNACRY RANSOMWARE: mixed

EQUATION GROUP: QUESTIONS AND ANSWERS : tactical

This Is Not a Test: APT41 Initiates Global Intrusion Campaign Using Multiple Exploits: mixed

## 3. Research about the difference between TTP: Tactics, techniques and procedures?

**Tactics:** makes reference to a global way to attack

**Techniques:** each tactics is divided in different ways to do it, each way to do it, its a technique

**Procedure:** its the way that techniques are implemented

## 4. What is the difference between an Indicator of compromise and of attack?

an indicator of an attack is an indicator that shows that an attack is incomming such a malicius hash detected. An indicator of compromise is an indicator that shows that an attack already succeed such a machine making things that is not supposed to do.

## 5. Review the indicators of compromise of Wannacry in <https://otx.alienvault.com/> and find one atomic, computed and behavioral IoC.

atomic: computed:

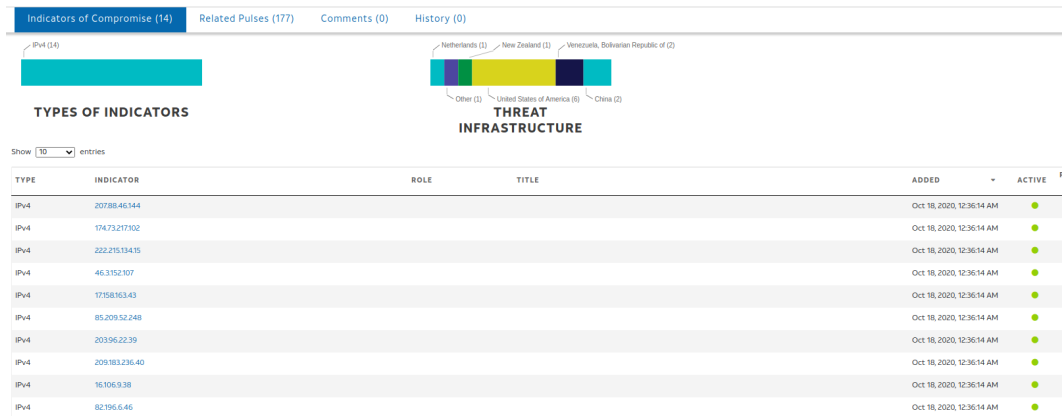

Figura 1: atomic

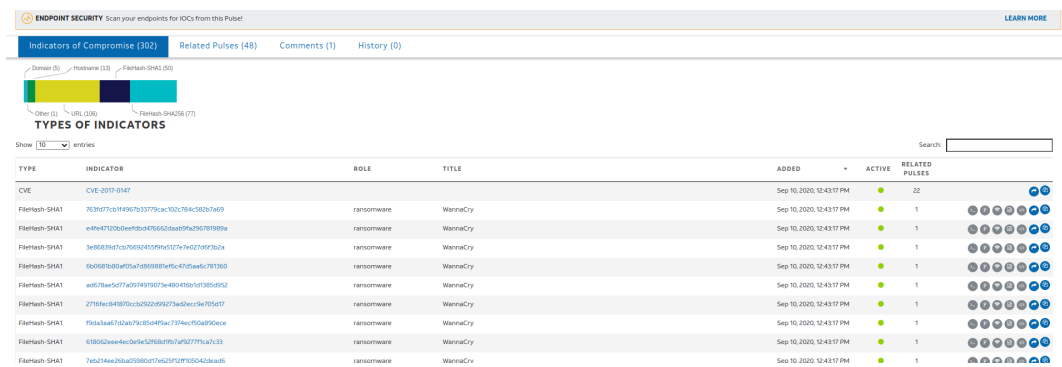

Figura 2: nombre

behavioral:

i didnt found none of those related to wannacry :(
